SUBJECT: Dry Color Photography

25X1	l. At various times during the last se has tested different employees a process, continuous tone, photographic reprovaried, but the general implication was that basic principle but did not have anything to when and if there was any, that the Agency w	s to the possibility of a dry duction material. The answers they were working on some disclose. I was assured that					
25X1 25X1 25X1 25X1	2. In May 1969,  to discuss the possibility of a dry  After this business was completed,  to which he had never had a satisfactory ans  was working on a dry color repro-  answered that if and when they did have a dry  production, that the Agency would be the fire	stated that he had a question wer-he wanted to know if the duction material.	⊒25X <sup>2</sup>				
25X1	as I can tell, this is the basis for probably has dry color photo material.	guess that the	25X <sup>2</sup>				
25X1	3. It might be fitting to mention at this time that during the management personnel briefing at NPIC, stated that the company was going to start selling their "Color-in-Color" line copy reproduction machines (a color-zerox type of machine). He also stated that there was a long line of customers waiting for these machines but that if the Center wanted one of them, he would see that we got one of the first. Graphics has shown an interest in this machine and might possibly want one-depending upon the price, which is to be announced.
